DETAILED ACTION

Response to Appeal Brief

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Allowable Subject Matter

2. Claims 1-11 have been allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The prior arts of record to Rumreich, Ford and Collings either alone or combine fails to teach or suggest each and every feature as recited in claim 1 and claim 11, wherein claim 1 for an apparatus comprising a signal input for receiving a program signal associated with one of a plurality of signal channels; a signal output for providing an output signal derived from the program signal; an auxiliary data decoder for detecting program related information included in each program signal; and a processor operatively connected to the signal input, the signal output and the auxiliary data decoder, wherein the processor is responsive to user selection of a first operating mode for controlling the output signal in a predetermined manner to reduce user access to the output signal for at least until the program related information is detected upon user selection of a new one of the plurality of signal channels and user selection of a second operating mode for providing user access to the output signal and prior to detection of the program related information. As for claim 11, the step of blanking the display occurs before the tuning to the selected channel while Rumreich calls for the blanking after checking the user
